

2017 M-STEP PRESENTATION for Coffee and Conversation

Jen Potteiger
November 8, 2017

Why State Assessments Are Important

- M-STEP and MME are “summative,” meaning they measure what students have learned during the year in relation to Michigan’s career and college ready learning standards.
- They are required under both state and federal law, to ensure all children are learning and receiving a high-quality education.

2018 M-Step Assessment

- **All students in grades 3 - 8 take the following:**
 - ELA
 - Math
- **5th and 8th graders take the following:**
 - Science
 - Social Studies
- **What's different?**
 - Science has historically been tested in 4th and 7th grades
 - Performance Tasks have been eliminated from math assessment
