

June 5, 2020

Dear Husky Families,

Our hearts are heavy as we wrap up a school year that has made its mark on history in so many ways. Holly Academy is, and always will be, focused on educating the whole child. Education that focuses on the importance of inclusivity, kindness, and acceptance. Our students learn from the day they walk through our door that character defines us. Our character development program is a constant source of pride for our Academy. However, we can do better. It is our responsibility to do what we can to eliminate racism in all its forms. It is up to us to be intentional and vigilant as we endeavor to prepare our students to improve the world in which we live.

The events of the past week once again shine a light on social injustice. While it is not our school's responsibility to make political statements, we are steadfast in our goal of promoting good citizens of character. It is our intent and our mission to teach a global perspective and instill in our students a sense of civic duty and purpose.

Holly Academy stands behind justice, equality, and dignity for all. We stand in solidarity with our communities across the state and nation seeking equitable justice for everyone. We must all strive to live in a society and a country where our rights and our dignity are equal for all.

We believe we must do all we can to learn, to understand, to listen, and to try our best to empathize. At Holly Academy we will strive to become change agents for the betterment of all.

In partnership with you,

Holly Academy Administration, Staff, and Board of Directors
