

HUSKY VIRTUAL ACADEMY

Holly Academy will be offering all Husky families the option of choosing a 100% virtual model this fall. This option is **FREE** to all interested families.

Virtual learning

- ✓ Students will access Husky Virtual Academy, which uses the Odysseyware online platform, aligned with Holly Academy's in-person curriculum.
- ✓ The virtual platform contains a 180 day schedule that mirrors the days that students are in-person learning.
- ✓ Students complete all core subjects each day. Some specials classes will be available on the platform (P.E., music).
- ✓ Husky Virtual Academy courses are monitored by certified and highly-qualified Holly Academy teachers.
- ✓ The virtual program has the same rigorous academic standards as the in-person classes.
- ✓ Holly Academy will loan Chromebooks to students in the virtual program that are in need of a device.

Holly Academy's virtual learning program provides flexibility for families that are not comfortable with in-person teaching and learning. For families that prefer in-person teaching or the blended model, those options are available. Once you choose the option that fits your family's needs, you are not bound to it for the remainder of the school year. Families may switch to another option at the beginning of each subsequent marking period. Dare to be remarkable at Holly Academy!
